~~15.10.2022~~

Sol Sample no: 31

24/06/2023

Village name: Khalipur.

Farmer names: ~~Hiram~~ & Ibrahim Seikh.

- ① PH Value of Sample 31 \rightarrow 6.0
- ② Organic Carbon of Sample 31 \rightarrow 0.7

• Suggestion of PH \rightarrow PH value of this village, Khalipur is perfect for some crop cultivation - rice, sugarcane. But not suitable for the potato. This land will be reclaimed to add more potassium and nitrogen to cultivate the potato.

• Organic Carbon \rightarrow Organic Carbon 0.7 value is normal for crop production in this area.

Soil Sample no : 23

Name of village : Masundi

Farmer name : Arup Saha

(i) PH Value of Sample 23 — 5.5
acidic.

(ii) Organic Carbon value of Sample 23 —
0.25 %

Suggestion: - The soil sample of the participant from the village Masundi ~~denotes~~ is not so good for cultivator Mr. Arup Saha may have been using same crops ~~for~~ and adding chemical fertilizer blindly. The PH value is 5.5 which is acidic. Therefore it is suggested to use few organic manure and use the process crop rotation. The organic Carbon value of the given sample is 0.25% which is very less as per the requirement. Therefore it is advised to add organic manure and cultivate various types of crops, etc.

Report on Soil Testing Camps organized by the department of Geography, Kandra Radha Kanta Kundu Mahavidyalaya.

Date: 28.6.2023

Since 2018, the Department of Geography at Kandra Radha Kanta Kundu Mahavidya has been actively organizing an annual Soil Testing Camp respectively: --(10.10.12018, 19.12.19 to 21.12.19, 20.03.20, 25.11.21, 09.09.22, & 21.6.2013). The primary aim of this initiative is to assess the quality of soil collected by local farmers in the surrounding areas. During the camp, farmers bring soil samples from their agricultural lands, which are then analysed in the soil laboratory of the department of geography, Kandra R.K.K.Mahavidyalaya

The process involves a comprehensive examination of the soil samples, allowing for an in-depth understanding of their quality. Subsequently, the camp plays a pivotal role in raising awareness among the participating farmers about the characteristics of their soil. Farmers receive valuable suggestions on enhancing soil quality to optimize production and recommendations regarding suitable crops for their specific soil types from this camp.

Over the years, the participation in the Soil Testing Camp has seen a consistent engagement from the local farming community of the surrounding villages of the districts Purba Bardhaman, Birbhum and Murshidabad. A total of 72 participant farmers participated in the camp from the year 2018 to 2023. Year-wise number of participants recorded as the following:

Mrinal Kantec

DR. M.K. CHATTOPADHYAY

Principal

Kandra Radha Kanta Kundu Mahavidyalaya

P.O.-Kandra, Dist.-Purba Bardhaman

Pin- 713129

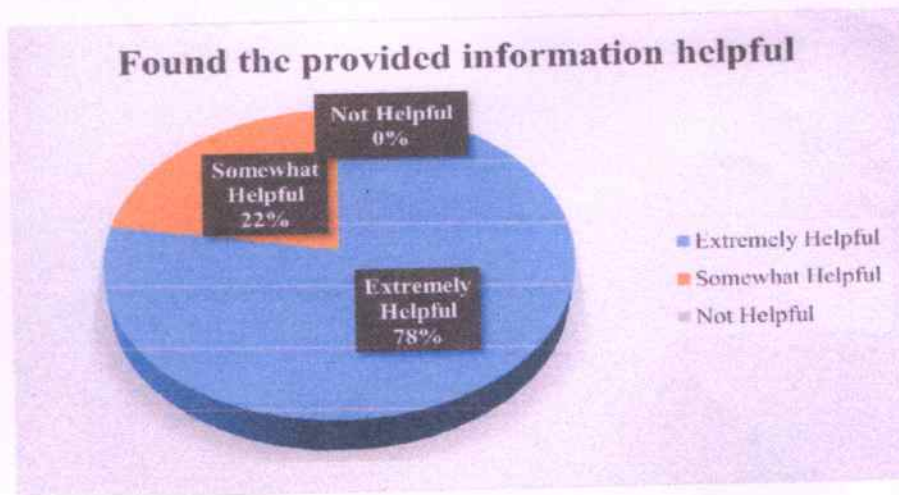

Notably, in the year (2019), the camp welcomed distinguished guests, including a representative from the Block Development Officer (BDO) of Ketugram-I and the Agricultural

ment Officer (ADO) of Ketugram-I. Their presence enriched the event as they shared insights on the current agricultural status, further benefiting the participants with their valuable knowledge. The Soil Testing Camp stands as a commendable initiative bridging the gap between academia and local agriculture, contributing significantly to the sustainable development of the farming community in the region.

Outcome:

The Purba Bardhaman district is renowned for its agricultural practices, particularly in rice cultivation. The region surrounding Kandra Radha Kanta Kundu Mahavidya is characterized by its remote and developing nature, with rice production playing a crucial role in the local economy. Organizing soil testing camps in this area holds immense significance, aiming to raise awareness among the residents about the quality of soil for crop cultivation, which constitutes their primary source of income. These camps serve as a valuable platform for imparting knowledge to the community. Armed with insights gained from the soil testing initiatives, individuals can apply this newfound understanding to enhance crop production. The ripple effect of improved agricultural practices is not only seen in heightened food production but also contributes to the overall development of the local economy.

The feedback forms completed by participating farmers revealed that all attendees, constituting 100% of the participants, underwent their initial soil test during the camp. Prior to their participation, none of the farmers possessed any prior knowledge regarding the quality of their agricultural land. They expressed appreciation for the initiative, deeming it beneficial to their farming endeavours. Additionally, they conveyed satisfaction with both the soil test results and the information disseminated during the camp.

Level of Satisfaction with the quality of Soil Testing Service

Handwritten signature
DR. M.K. CHATTERJEE
 Principal
 Kandra Radha Kanta Kundu Mahavidyalaya
 Q. Khatra, Jib. Purba Bardhaman
 Pin- 713129

All participating farmers who provided feedback unanimously reported experiencing outcomes in crop production subsequent to implementing the suggestions received during the .By empowering the community with information about their soil quality, these camps play a otal role in fostering a sustainable and prosperous environment, aligning with the broader goal of dvancing both agricultural practices and economic well-being in the region.

Report on One-Day Workshop on Child Marriage Prohibition

The one-day workshop on Child Marriage Prohibition was organized by IQAC in collaboration with New Alipore Prajak Development Society, West Bengal on 13th December 2022 at the Rabindra Seminar Hall from 11 a.m. onwards with the aim of raising awareness about the harmful effects of child marriage and exploring strategies to prevent and eliminate this practice. Participants, including stakeholders from governmental agencies, non-governmental organizations, community leaders, and youth representatives, came together to discuss and collaborate on effective interventions to combat child marriage.

The workshop commenced with an inaugural session featuring speech of Palash Mondal, a member of the Prajak Society. Interactive sessions allowed participants to share their experiences, challenges, and success stories in combating child marriage within their respective contexts. In the end everybody took an oath in order to banish Child Marriage. The workshop was accompanied with a rally in the local area.

Report on Special Lecture on "Safety Tips for Women"

A special lecture was organized by Kandra Rajiv Gandhi Youth Computer Center system on "Safety Tips for Women" on 20/07/2023. Ms. Minakshi Paul, Assistant Professor, Department of English, Kandra Radhakanta Kundu Mahavidyalaya was invited to deliver this lecture and sensitize the local female population about their safety and rights. The programme was well received and appreciated by the audience. The participants range from school to university students. The lecture primarily focused on challenges that female population from the rural belt face and strategies to tackle them which can boost their confidence and motivate them to move towards newer avenues in life.
